Their entry is not, nor will it be, within any withdrawal time relative to the administration of any drug, chemical, or feed additive approved by the FDA and/or the USDA by the time the animal(s) is officially checked in to the County Fair. As a condition for participation in the show, every exhibitor must agree to submit their animal(s) for testing any time after check-in. The Fair Board reserves the right to perform any test, including but not limited to tissue, blood and/or urine laboratory analysis, on the Grand and Reserve Champions, along with a random group of animals from each division. The exhibitor and his/her parent/guardian must be present during the collection for testing and must witness the sample; thus, verifying the sample to be properly collected and prepared for analysis. The Valencia County Fair reserves the right to condemn and/or disqualify any animal, either alive or dead, found in violation of the use of any drug, chemical or feed additive as described above, and the exhibitor will forfeit all awards and sale proceeds and be subject to testing at future county fair shows. If an animal is disqualified for testing positive and/or the carcass condemned at slaughter, the disqualification will not impact class or overall placings for the species.
2. If a sample tests positive for illegal drug residue during the preliminary test, the parent/exhibitor has the right to request a second test to confirm the results. The second sample taken from the same animal will then be taken to a private firm for further testing. The parent/exhibitor will be responsible in advance for all costs associated with this second test. Knowledge of this pending information will only be made available to the Valencia County Fair Board for privacy purposes only.
3. **Emergency Treatment:** If an animal requires emergency treatment while on the fairgrounds, only a licensed veterinarian with the prior approval of the Valencia County Fair Livestock Committee will be allowed to administer a drug, chemical or feed additive. All treatment costs are the responsibility of the exhibitor. All treated animals are still subject to the Wholesome Meat Act. For a treated animal(s) to remain eligible for sale, the exhibitor must make arrangements with the buyer to hold an animal until it is clear of any withdrawal period. The Livestock Committee must be notified of and approve this arrangement, and it will be announced prior to the animal being sold in auction.

4. The official sale weight for steers will be the actual weight taken at the fairgrounds for show. The minimum weight on market steers is 900 lbs. For the purposes of the sale, Market Sheep and Market Goats' numbers will be combined. Only ribboned livestock will be eligible for sale. The total number of sale slots for each species will be determined by their percentage at the fair, with no less than 5 market beef to be sold. EXAMPLE: If 150 Market Lambs and 140 Market Swine are registered at the fair, the total number of Market Lambs and Market Swine would equal 290. 150 Market Lambs out of 290 animals $150/290=52\%$. 140 Market Swine out of 290 total number $140/290=48\%$. This would mean that 52% (34) of the 66 sale slots would be given to Market Lambs and 48% (32) of the 66 sale slots would be given to Market Swine. In no case shall either species receive less than 25 sale slot positions. The market livestock officials and sale committee reserve the right to decrease these numbers at any time in accordance with the total number of animals shown and buyers' support.

1-Bovine & 1-Market goat	1-Rabbit & 1-Market Lamb	

8. All livestock sold through the sale, including add-ons, shall be charged 6% to defray judging and sales expenses. The Fair Board will not be responsible for animals not listed in the auction.
9. Any exhibitor who wishes to withdraw from the sale must notify the designated official during the allotted time. Pulls will be after the last livestock show for one hour. Time to be determined by the Livestock Committee. Any exhibitor or their agent who harasses or seeks special privileges will be subject to disciplinary action as deemed necessary by fair management, including withholding any sale money. Any questions on the sale of the animals or payments should be directed to the VFMC (Fair board).

Valencia County Fair 2025

10. Market Swine, Market Goats and Market Sheep will be considered for sale on a percentage basis of each species however, each Champion of Breed shall be eligible to sell regardless of the percentage.

EXAMPLE: 100 market swine entered, 10 Hampshire $10/100 \times 17 = 1.7$ market swine sell of the Hampshire which means Champion and Reserve Champion of Breed sell. Because each Champion of Breed will sell our percentages could be off. Not at any time will more than the maximum number of animals be allowed to sell. The sale committee shall determine if the decimal place will be rounded up or down because of the maximum number of animals allowed to sell. The number of each breed to be sold will be posted prior to the show.

AGREEMENT OF RESPONSIBILITY AND LIABILITY

It is clearly understood that Valencia Fair Management Company, Inc. and its officials, officers, directors, and agents shall not be responsible for any damage, loss or injury to any person or property which is caused directly or indirectly for any reason. The exhibitor, owner, their agents and/or representatives agree to indemnify and hold Valencia Fair Management Company, Inc., and its officials, officers, directors, and agents harmless for any damage, injury or loss suffered during or in connection with the Valencia County Fair.

By applying for entry, Exhibitors, Owners, their Agents and/or representatives agree to comply with all the rules and regulations governing the Valencia County Fair as published in the Valencia County Fair book. Valencia Fair Management Company, Inc. has approved adoption of the National code of Show Ring Ethics (see below). Application of entry in the county Fair acknowledges the exhibitor, owners, their agents and/or representatives have read and the Valencia County Fair General Rules and Regulations, specific and/or special departments rules and regulations, and the National Code of Show Ring Ethics and agrees to observe and abide by these rules.

IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS)

Exhibitors of animals at livestock shows shall always conduct themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured competition classes. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, at the request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of drugs. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or person responsible for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event, which culminates with the animal entering the food chain, shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the chemical analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or

Valencia County Fair 2025

other substance tested (by the approved laboratory to which it is sent) is the one taken from the animal in question. Its integrity is preserved and all procedures of said collection and preservation transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or responsible person to prove otherwise at any hearing regarding the matter conducted by the fair or livestock show. **SIGNATURES REQUIRED ON THE SECOND PAGE OF THIS FORM!** At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair, or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation, and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individuals to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or responsible person to have any disciplinary action taken by the fair or livestock show against such individuals published in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.
